01-0235-07 / Log No. 69606

Dear Mr. Steinebach:

The Division has reviewed your operating permit application dated November 24, 2014, for the 80 hp natural gas fired emergency generator engine at Hot Stamp 3. Your application indicates that you completed construction on or about July 25, 2012. The Division has not received a construction permit application or issued a construction permit for this source.

Division Rule 1200-03-09-.01(1)(a) states, in pertinent part, as follows:

... no person shall begin construction of a new air contaminant source in Tennessee without first having applied for and received a construction permit from the Technical Secretary ...

Air quality permits contribute to a cleaner environment and healthier citizens in Tennessee by maintaining federally mandated National Ambient Air Quality Standards (NAAQS) for air pollutants in attainment areas and controlling the increase of air pollutants in nonattainment areas.

The Tennessee Air Quality Act allows for enforcement action against individuals who violate the Act or its Regulations. The above described violation will be evaluated to determine if additional enforcement action is warranted. If you have any information that proves the violation did not occur, or if you have information that documents mitigating circumstances relative to the violation, you may submit that information in writing to the Technical Secretary, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15TH Floor, Nashville, Tennessee 37243 or e-mail the response letter to Air.Pollution.Control@TN.gov. To ensure that information you wish to submit will be considered, it must be submitted within 20 days of your receipt of this **Notice of Violation**.

Technical inquiries surrounding this allegation of noncompliance should be directed to John Trimmer at (615) 532-0552 or John.Trimmer@TN.gov. Questions concerning the enforcement process should be directed to Tammy Gambill at (615) 532-0531 or Tammy.Gambill@TN.gov.

Sincerely,

Steven Simpson, Section Manager
East Tennessee Permit Program
